Type of tree and location

Botanical name (if known):

Common name (if known):

Location (give as much detail as possible, and attach a map and photographs if you can):

.....
.....

Reasons for significance

Thinking about the tree's significance **within a local context**, tick all boxes that are relevant. If you think a criterion may apply but would like further assessment to confirm this, mark with a question mark. Add supporting comments in the spaces provided.

Landscape

- A tree or group of trees of outstanding aesthetic value
- A tree that makes an important contribution to the landscape or microclimate
- A tree that is an outstanding example of its species
- Significant roadside vegetation
- A tree of substantial size in height, girth or canopy spread
- A tree that exhibits an unusual or abnormal form or physical features

.....
.....
.....
.....

Historic

- A tree with a specific historic or commemorative association
- A significant tree that survives from the pre-European era
- A tree of an age that makes it rare for its species

.....
.....
.....
.....

Social

- A tree in a unique location or context
- A tree that represents an important landmark
- A tree that has important associations with Aboriginal culture or heritage
- A tree that has significant social and/or religious connections to a local community

.....

.....

.....

.....

Habitat and horticultural

- A tree of outstanding horticultural or genetic value or rarely found
- A tree(s) with outstanding value as habitat or as a haven for native flora and fauna
- Remnant native vegetation

Include details of fauna species known to use the tree:
