

National Tree Day in Inverloch 2023

Photostory Laura Brearley

Ed Thexton and John Cuttriss preparing the way ...

WELCOME
SUPER
PLANTERS

I like the planting. We put them in the dirt.

Leni

Q. What have you been doing today?

A. I've been running around a lot.

I planted lots of plants. I like the planting.

Q. Why is it good to mulch when you've planted a plant?

A. Because it will grow.

Lakyn

We put plants in holes and mulched them and watered them and we came back and did more of them.

It's good to mulch the tree after you planted them, so weeds don't get in.

Hudson

We went on the bus and I was so excited.

My message to other children is that it is important to plant trees.

You've got to put them in the hole. It has to be a good hole.

I am working so hard for these gardens.

Jackson

All of our kinder group have been very excited to come planting on National Tree Planting Day here in Inverloch.

We planted more than we thought we would.

We do lots of environmental work at kinder.

We talk about looking after the land so to be out and actually part of the process is good.

We really appreciate the invitation to come.

Millie Marriner

Kindergarten Teacher Inverloch Childcare

Happy National Tree Day July 2023

Big thanks to Ed Thexton, John Cuttriss,
Millie Marriner, Jess Brown, Abbie Prosser,
and the children of Inverloch Childcare.
